DHARA SANSTHAN

A NOT FOR PROFIT ORGANISATION

OUR FOCUS AREAS

Healthcare

We focus on making health based better outcomes. This is done through various health based interventions.

Preventive

Women and Child development

Major interventions including Women empowerment, Education, skill development, self- reliance and financial independency. Child- oriented health, social orientation and awareness.

Natural Resource Management

Includes Environment,
Water,
Agriculture and Livelihood

Holistic Development

A comprehensive development of the people, place and all parties involved would enable the overall development of any area. Taking this into consideration we take steps ensuring this.

OUR MISSION

A 1989 registered under Society Registration Act, 1958, DHARA Sansthan a non-profit organization is working for development of poor and deprived sections with special emphasis on women and child development at health and education front. It also helping the developmental system in reaching out remote and difficult villages and hamlets. Similarly in Education and water resources sector it works as small- scale service facilitator agency. During recent years DHARA started playing role in empowerment of deprived part of community such as- dalits, women, physically challenged and children regarding development services and basic right issues. DHARA seeks to improve the overall status of rural communities especially tribal through creating awareness and capacity building process.

“Touching rural lives through better health and educational outcomes”
